

Amorim Isolamentos, S.A.

TECHNICAL DATA SHEET

(Polypropylene)

References: CorkSorb R05040, R01040 e PM4050.

Description: Perforated hydrophobic polypropylene absorbent Rolls and Sheets. Designed for cleaning oils and solvents without absorbing water.

Technical Parameters:

Absorption capacity (I/kg):	
R01040	140 litres
R05040	70 litres
PM4050	140 litres
Specific weight (gsm)	200
Saturation time (seconds)	20
Specifications tolerance (+/-)	10%

Packaging::

R05040: 50 cm wide x 40 m long mini-rolls in Polyethylene bags.

R01040: 1 m wide x 40 m long rolls in Polyethylene bags.

PM4050: 50 cm x 40 cm absorbent sheets in Polyethylene bags (200 sheets/bag).

Product Features:

Designed to absorb spills in emergency situations in land or aquatic environments:

Absorb oils, hydrocarbons, gasoline, solvents and cleaning agents without absorbing water.
