

 **Reference:** CorkSorb spill kit KT0036

 **Description:** Hydrophobic and highly absorbent spill kit for absorbing oils/hydrocarbons and NO water.

 **Technical Parameters:**

Absorption capacity	42 l/bag
Kit dimensions	58 x 21 x 53 cm
Weight of cork	≈ 4,1 kg/bag
Dimensional / weight tolerance (+/-)	15%

 **Content:** 1 bag of cork granules ref.:G01025, 3 socks with 1,2m ref.: S07120, 1 pillow ref.:P45x45 and 10 hydrophobic polypropylene absorbent sheets (40x50cm) ref.: PM4050.

 **Key benefits:**

- 1 – Designed for a quick and efficient response in an emergency spill situation.
- 2 – Easy to transport, handle and allocate.
- 3 – Reusable package.
- 4 - Uses cork as an absorbent. Cork is a 100% natural product: ecological (natural and renewable) and sustainable (it is the bark of the cork oak tree which is extracted from the tree without damaging it; it promotes forest cleanliness and conservation).

Disposal Considerations / Cautions

As local conditions, product use, and exposure can vary widely, the end user must determine the most appropriate disposal method for a used or not CORKSORB product. Dispose always in accordance with local regulations.

Attention: the nature of the absorbed liquid may alter the safety conditions required to deal with the used-up material. For more details please consult the MSDS.
